Addition and Alteration Work at 33 Pebble Lane

Dear *Norman,*

It has been slightly more than a month since we started staying at Pebble Lane and we are very happy with our new home. Even though it is smaller than our previous one, we feel that it is more spacious as the use of space has been very well thought through. We are very glad that we selected Asialand for the project.

Right from the start, we were impressed with the efficient, helpful and professional manner. I can still remember the assistance provided to obtain the original building plan from BCA, the discussions on the broad general concept that we had in mind and the advice with regards to re-construction versus A & A, piling, etc – this was even before we had selected Asialand. The approach and the commitment certainly inspired confidence.

The attention to detail and the level of quality and commitment was evident throughout the entire phase of the project. This included the management of environmental issues and minimising inconveniences to the neighbours. In A&A projects, inevitably there will be unforeseen situations which will require changes to plans/budget and this is every owner's nightmare. We had our fair share and the honesty, integrity and professionalism of Asialand was evident throughout.

In summary, you and your staff in Asialand provided excellent service and are honest, professional and great people to work with. We are happy that we entrusted the work to Asialand.

All the best!
